A South African story for all ages

Timol - A Quest For Justice by Imtiaz Caiee, published by STE Publisher at R135.

It is such an advantage to a critic when the author describes exactly why he has written his book.

On page 169, Caiee states that "we must never lose sight of where we come from. It is the road map to our future".

This is another one of those truly South African stories.

This book should touch you on some sort of emotional level. When reading about these

remarkable South Africans that are no more, one has to wonder what could have been, or did the bizarre circumstances of apartheid South Africa bring these remarkable individuals on to the national stage?

Another question is why South Africans of Asian descent play such a prominent role within the government of the day.

The book is about the intrepid Ahmed Timol.

He was a remarkable young man who is missed in present day South Africa. The biographical journey

through his life is an honest explanation of the intricacies of the Asian community within South Africa.

Many associations, which were previously puzzling, become clear to the uninformed.

The specific familial circumstances of the subject's interesting life are also especially illuminating.

And finally, when will this quest for justice concerning Timol's death be answered?

It seems that this is one of the objectives of this book. -Robbie Scholtz
