**RE : TIMOL MATTER**

Dear Mr Cajee

I acknowledge receipt of your letter of the 19 October 2017 and thank you for your kind words. It is because of your persistence, perseverance and enthusiasm that the finding of the original inquest was reversed.

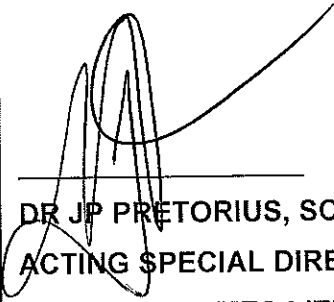

In regard to your reference to the Court's prima facie findings I can confirm that this office immediately instructed the South African Police, DPCI to open 3 dockets in regard to the findings of the honourable Judge Mothle. We have already provided you with details of same. The investigators are not necessarily bound by the findings in that an accessory after the fact to murder could possibly have prescribed. We are still of opinion there was dolus eventualis and that Rodrigues have placed himself on the scene of the murder therefore three (3) dockets have been opened as recommended by the honourable Judge Mothle.

This office is loath to provide a time frame for another institution and an investigation, but is aware of the fact that the investigation officer has made considerable progress in compiling the requisite dockets and some of them are nearly complete. You will be informed of the progress in these matters.

Your assistance would be highly appreciated and as stated it is only when there is complimenting contributions that we will be able to rectify the injustice of the past.

Regards

Justice in our society, so that people can live in freedom and security
